Jaeho Cho

Artificial Intelligence Graduate School
College of Information and Biotechnology
Ulsan National Institute of Science and Technology
50, UNIST-gil, Eonyang-eup, Ulju-gun, Ulsan, Republic of Korea
jh_cho@unist.ac.kr

PERSONAL DATA

- Birth: 24th Mar. 1998, Republic of Korea
- Site: https://github.com/GluteusStrength

EDUCATION

Mar. 2019 ~ Aug. 2024	**Hanyang University ERICA**	**Ansan, Korea**
	(1st major)	
	B.S. Division of Media, Culture, and Design Technology (Media Technology)	
	College of Computing	
	(2nd major)	
	B.S. Applied Mathematics	
	College of Science and Convergence Technology	
	(GPA: 4.17 / 4.5, Major GPA: 4.25 / 4.5)	
	**** Early Graduation, Summa Cum Laude***	
Jan. 2025 ~ Feb. 2027	**Ulsan National Institute of Science and Technology**	**Ulsan, Korea**
	M.S. Artificial Intelligence Graduate School	
	(GPA: 3.85 / 4.3, Major GPA: 3.85 / 4.3)	

RESEARCH INTEREST

- Transfer Learning, Semi/Self-Supervised Learning
- Object Detection, Anomaly Detection
- Industrial AI (AI+X)

INTERNATIONAL CONFERENCES

1. **J. H. Cho**, J. S. Bang, and T. H. Kim "Embedding Predictive Adaptation and Refinement for Multi-Modal Industrial Anomaly Detection", WACV 2027, Orlando, USA

DOMESTIC CONFERENCES

1. **J. H. Cho**, H. J. Lee, G. H. Jeon, M. T. Oh, and S. B. Yoon "A study on the improvement of Object Detection Model via Data Augmentation", ACK 2023, Korea
2. J. H. Song, **J. H. Cho**, and S. I. Lee, "Integrating Regional Proposal Network and Segment Model for Enhanced Out-of-Distribution Object Detection, KSC 2023, Pusan, Korea (2023) - poster
3. **J. H. Cho**, Y. S. Bae, Y. S. Cheon, and K. M. Yun, "Fine-tuning Open-set Detectors through Self Training and Data Selection Strategies: A Case Study in Banner Detection", KCC 2024, Jeju, Korea (2024) – poster

EXPERIENCES

- **Research Intern** at Electronics and Telecommunications Research Institute (ETRI), UST Jul. 2023 ~ Aug. 2023
  - Advisor: Seung Ik, Lee
- **Research Intern** at Electronics and Telecommunications Research Institute (ETRI) Jan. 2024 ~ Feb. 2024
  - Advisor: Kimin, Yun
- **Research Intern** at Ulsan National Institute of Science and Technology, MVL Lab (UNIST) Jul. 2024 ~ Aug. 2024
  - Advisor: Taehwan, Kim

- **Intern** at POSCO DX (Intelligence Operation Group) Jul. 2026 ~ Jul. 2026
  - **task:** Development of real-time detection model for key steel tapping events and validation of PLC integration

AWARDS AND HONORS

2023	WCRC Data Contest 3rd prize (deep learning session)
2023	KSC2023 Undergraduate/Junior Paper Competition Participation Award (undergraduate session)
2019-1st, 2nd	ERICA Excellent Talent Scholarship, Hanyang University ERICA
2022-2nd, 2023-1st	Software Brain Scholarship (Academic Excellence), Hanyang University ERICA
2024-1st	Haesung Cultural Foundation Scholarship

PROJECTS

- **Data Creator Camp** (Oct. 2022 ~ Nov.2022)
  - Developing a CNN model to classify illustration images after eliminating actual images in own ways
  - Role: Eliminating actual images and implementing a model based on VGGNet
  - keywords: Classification, Convolutional Neural Network
- **Smart Maritime Logistics x ICT Mentoring** (Apr. 2023 ~ Nov. 2023)
  - Developing a system that controls the access to maritime logistics site based on Artificial Intelligence Facial Recognition with a mentor
  - Role: developing a model which detects whether wearing a safety helmet or not through YOLOv5 and a model for Facial Recognition through Siamese Neural Network
  - keywords: Object Detection, Facial Recognition
- **UST-ETRI Internship @ Field Robotics Laboratory** (Jul. 2023 ~ Aug. 2023)
  - Integrating Region Proposal Network and Segment Model for Enhanced Out-of-Distribution Object Detection
  - Role: Conducting an experiment about detecting out-of-distribution objects through Detection Transformer
  - keywords: Object Detection, Detection Transformer, Out-of-distribution
- **KISTI AI contest** (Aug. 2023 ~ Oct. 2023)
  - Developing a model which classifies papers in Korean
  - Role: Training a multiclass classification model, KoBERT
  - keywords: Classification, KoBERT, Fine-Tuning
- **WCRC Data contest deep learning session** (Oct. 2023 ~ Nov. 2023)
  - Developing a model which detects whether wearing all safety equipment through YOLO
  - Role: Training several models to select model, Improving a model's performance
  - keywords: Object Detection, Super Resolution, Fine-Tuning
- **ETRI Internship @ Visual Intelligence Laboratory** (Jan. 2024 ~ Feb. 2024)
  - Developing a model which detects the banner through Grounding DINO (Deep View)
  - Role: Conducting an experiment to improve a model's performance on target data based on source data with a different domain
  - keywords: Object Detection, Semi-supervised Learning
- **UNIST Intern @ MVL laboratory** (Jul. 2024 ~ Aug. 2024)
  - keywords: Semi-supervised Learning, Multi-modal Representation Learning

- **Multi-Modal Industrial Anomaly Detection @ IMML Lab** (Jun. 2025 ~ Mar. 2026)
  - Industrial Anomaly Detection by extracting and fusing defect information from RGB and 3D point-clouds
  - Role: First Author
  - keywords: Anomaly Detection, Self-supervised learning, Sensor Fusion (RGB + 3D), Industrial AI
- **POSCO DX Internship @ Intelligence Operation Group** (Jul. 2026 ~ Jul. 2026)
  - Development of real-time detection model for key steel tapping events and validation of PLC integration
  - Role: Developing real-time detection model (YOLOv11) and validating integration with a mock PLC server
  - keywords: Smart Factory, Real-time model, PLC communication
- **IITP Hyperscale Industrial AI @ IMML Lab** (May. 2026 ~ Dec. 2026)
  - Propose a benchmark for large-scale engineering drawings with fine-tuned VLM via Supervised Fine-Tuning
  - Role: Co-first Author
  - keywords: Engineering Drawings, Vision-Language Model, Industrial AI

EXTRA ACTIVITIES

- **Certificated Program**
  - LG Aimers 2nd, 3rd, 4th
- **Mentoring Program**
  - Hanyang peer tutoring (tutor) – subject: Machine Learning
- **Dacon Competition**
  - Low-resolution bird image classification AI competition (20 / 385, top 5%)
  - LG Aimers 3rd Hackathon (71 / 747, top 10%)

ADDITIONAL SKILLS

Language

- OPIc: Intermediate High (IH)

Programming skills

- Python (Advanced), R (Intermediate), Java (Beginner)
- Pytorch

MILITARY SERVICE

Jan. 2020 ~ Sep. 2021 — Republic of Korea Navy (Cheonghae unit 33rd)
